

## Dry Ice Poly Boxes

TOMCO<sub>2</sub> Systems provides a wide variety of USDA approved insulated dry ice storage boxes for use with dry ice pellets, discs, slices or blocks. Our line of high-quality polyethylene storage containers are designed specifically for holding and transporting items that require dry ice or wet ice. The boxes are built to withstand the extreme cold temperatures of dry ice while retaining the durability needed for everyday operation.

### FEATURES

- Made of double-wall polyethylene that is filled with urethane foam insulation
- Virtually unbreakable in daily operations
- Lightweight and durable for easy mobility
- Maintains critical temperatures for your laboratory specific materials
- Ideal for CO<sub>2</sub> cleaning, frozen food, medical and laboratory applications
- Casters are available for easy maneuverability
- Hinged lids with latches
- Available with or without drains
- Optional casters available on some models

## Dry Ice Poly Boxes

Our portable chest boxes feature polyethylene interior and exterior covering with urethane foam insulation. Available in different sizes to accommodate various laboratory and field applications. Ideal for cryogenic and laboratory testing as well as for the transport and storage of temperature sensitive specimens. Rounded interior corners allow for easy clean-up.

Model	External Dimensions	Internal Dimensions	Approximate Empty Weight	Volume	Dry Ice Capacity
TSP-301	28 1/8" x 19 1/8" x 25.25"	22 13/16" x 13 1/2" x 21"	39 lbs.	3.75 CF	200 lbs.
	71.42 x 48.56 x 64.14 cm	57.96 x 34.29 x 53.34 cm	17.7 kg	.106 m <sup>3</sup>	
TSP-302	23" x 22" x 20 3/4"	17" x 16.5" x 16 3/8"	30 lbs.	2.7 CF	150 lbs.
